

A Pathway to Success

## Leading Practices for Accounting and Financials

With thousands of successful implementations, NetSuite has a deep understanding of businesses across all sectors and the many financial challenges they face. As the pace of change accelerates — especially for those still relying on aged, on-premises ERP systems — companies are struggling to keep up. While they strive to improve business performance and increase customer satisfaction in an increasingly competitive environment, businesses today are constantly challenged with:

- Metrics based on unreliable data.
- Duplicative and manual processes.
- Maintaining compliance and control.
- Lack of flexibility resulting in an inability to scale.

### NetSuite:

Built with financial and accounting leading practices.

- **Continuous Customer Lifecycle Engagement** to ensure seamless continuity from sales to services to support.
- **Full visibility across the organisation** to operate at the speed of modern business, drive results, and scale.
- **Industry-based leading practices** built from over 20 years of collective implementation experience to drive value on Day 1.
- **Fully flexible platform** which allows for customisation to industry and business need.
- **150+ pre-built reports and pre-configured roles** with dashboards and business intelligence metrics.

“NetSuite gives us a system we can build on. We now have an integrated real-time view of what’s happening across the business and can spot issues earlier for faster intervention.” Ger Kirk, Operations Manager, Calnex

As they seek to address these challenges, companies are concerned about the time and capital required to fix their back-end systems. They realise, however, that the ability to quickly adapt and scale is critical to their success. What they need is a proven solution that can rapidly accelerate the business with a modern architecture. *What they need is NetSuite.*

NetSuite delivers a unique set of processes, activities, and systems specifically designed to deliver value. It provides our customers with a strong foundation to transform their business with a pre-configured solution and methodology that includes proven:

- Detailed workflows
- Pre-configured functional roles
- Dashboards
- KPIs

These leading practices leverage NetSuite’s unmatched experience and knowledge of accounting and financials processes. The focus is on enabling our customers to rapidly meet their business objectives and seamlessly grow and scale with NetSuite.

## A Proven Path to Success

NetSuite delivers a unified and phased pathway for our customers to succeed and scale their business. Here is how it works:

- The first step is all about delivering a single view of customers, orders, items/SKUs, and real-time reporting capabilities. Getting a business on a real-time platform so that all channels are operating from a unified base is the critical foundation. Leveraging NetSuite's pre-configurations and leading practices, customers are able to go live on this step quickly.
- The next step expands the accounting and financial functionality of the platform to enhance reporting and automation capabilities. This phase allows for international expansion, advanced financial capabilities, more streamlined procurement processes, and tighter purchasing controls.
- From there, they are freed from the constraints of their legacy systems and are ready to tackle more complex financial challenges, including integration expansion, project management organisations, global operations and book management, and advanced compliance requirements.
- Ultimately, the focus turns to more innovative and disruptive strategies such as integrated marketing, enhanced customer experience through self-service, and multi-channel integration.
